**Habit 4**

**"Think Win-Win":**  
This requires at least two people. When each person benefits from the relationship, they both win.  
When you think Win-win you want everyone to be successful. When there is a problem, you look for a solution that works for everyone. You understand that you don't need to put someone down to get what you want. You believe that we all can win! You believe in the importance of teamwork.
