

Portrait SESSIONS

As a National Award Winning Photographer with over 20 years professional experience, I offer the best and most exciting choice of session styles available!

En Plein air

En Plein Air sessions are probably the most popular and common outdoor sessions. A favorite of painters such as Renoir and Monet, the term refers to sessions outdoors in an attractive natural setting. En Plein Air sessions are a wonderful and fun way to create a beautiful and timeless portrait.

Lifestyle

Your photo session should reflect you and your personality, and the best way to do this is with a Lifestyle session. Whether riding on horseback, racing your dirtbike, or playing a video game, a lifestyle session will define who you are and what you love.

Urban

Need images with attitude and flair? Urban sessions are for those looking for the extra-ordinary. Downtown, often in back alleys, an Urban session gives you images very different from the portraits you had as a child.

Moonlight

Feeling adventurous? Looking for images that are truly unique? Have your outdoor session taken after dark. Include your car/truck/motorcycle, dress to impress or show your unique fashion sense, a night session is a fun time you'll definitely tell your friends about.

Pizzazz

Show your style! Wear your coolest outfits, bring your favorite accessories, and show what makes you special. Pizzazz studio sessions let you be you!

Traditional

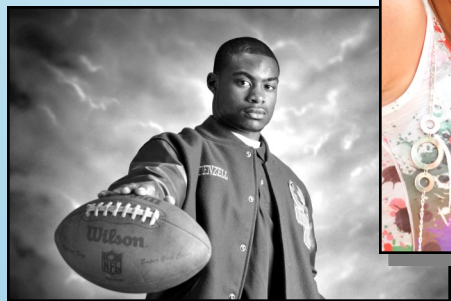

When you need to look your best, Traditional studio sessions remain ever popular. These timeless images, in a classic background setting, wearing your finest suit or dress, will be proudly displayed for years to come.

Fashion / Glamour

Who doesn't want to be glamorous? Fashion and Glamour sessions use exactly the same lighting and techniques as used for celebrities. You will look fabulous!

A' La Mer

Besides being a great excuse for a beach trip, sessions by the sea always become life-long memories. There's something magical about images at the beach, and these portraits are sure to become family heirlooms.

This Is Wilson Studio of Fine Photography

Passion

Senior Portraits represent a turning point in your life! These are your first portraits as a young adult! For the rest of your life, your Senior Portraits will define your transition into adulthood. As an artist, working with young people at the best time of their lives is truly a privilege. You are unique and special! You provide the inspiration to create images that are dramatic and artistic... reflecting your individual personality at its very best!

Inspiration

I love to travel with any spare time that I have. I attend several photography conferences each year around the country, and am regularly in contact with some of the best photographers in the world. By taking myself out of the daily grind and coming home with fresh ideas I can see the world in a different light. The art of photography is constantly evolving. What was cutting-edge five years ago is now old news. One of the things I love so much about being a professional photographer is the constant challenge. I can't wait to see what comes next!

Artist

Although I attended Carolina originally as a pre-med student (my Dad's idea), I found my true calling in the photographic arts. I was always one of those kids who asked for a camera at Christmas, and have always felt at home with a camera in my hands. After college, I quit a managerial position to take a photography job that paid less than 1/2 the salary. Since then, I've never looked back... learning, creating, exploring, and feeling.

Professional

When I started Wilson Studio in 1995, I was determined that the quality, service, and artistry offered would be the finest available. With state-of-the-art equipment, one of the nation's best labs, outstanding employees and caring client service, I feel I can honestly say...no one can offer you more than Wilson Studio!
